

Heated Tweezers

Wax Connections Inc.

#TH02450
(Straight Tweezers Set)

#TH02451
(Curved Tweezers Set)

Tweezer Features

- Tweezers Sets are used to insert a chaplet (small wire) into a pattern, to hold the core into position. Using our tweezers sets will eliminate having an open flame at the work center.
- Curved Tweezers have smooth teeth, best suited for small diameter wire
- Straight Tweezers have serrated teeth, best suited for larger diameter wire
- Tweezers stay cool until a control pedal is pressed applying power.
- Tweezers use resistance heating, will only work with platinum pins.
- Universal Plug Fits Power Supply

Power Supply

- Universal Plugs to Fit
 - Tweezers Sets
 - Foot Pedals
- Variable power output controlled by knob on unit.
- 120v input, 12v and 24v dc outputs.
- Units are designed to be stackable to reduce bench space.
 - On top of each other
 - Or multiples of two under a wax applicator unit.
